Educational Lecture Series

“Fall Preparations through Spring Management”

3 evenings, 6:00 to 9:00 pm

July 20, 22, 24, 2020

July, is the time to start the process of analyzing your colonies and making preparations so there are plenty of healthy winter bees, low to moderate varroa count, healthy nutritional resources and supplemental resources available for Fall, Winter and early Spring.

This class focuses on evaluating and preparing healthy colonies during the Fall transition from summer to winter bees, over Winter maintenance and, as Spring is a busy time for you and your bees, the benefits of timely inspections, forming goals and implementing a plan for apiary health. Basic beekeeping skills will be reviewed and an excellent reference, “The Beekeepers Handbook” is included in your tuition to further support your beekeeping knowledge. Bring a pad and pencil. Price including text: \$100.00.

Reservations now being accepted.
